

A Kids Way

Our theme this month lets children explore the world up close and find out for themselves how things work. They will use their imaginations to look at familiar things in new ways. By focusing on things children do, this unit expands their knowledge while they're having fun- an unbeatable combination. Activities for this unit will include: digging in sand, experimenting with bubbles, painting seeds, mixing colors, and exploring shadows.

Our literature this month will include the following:

- *Eppie M. Says
- *The Tamarindo Puppy
- *Chester's Way
- *The Miller and the Donkey

We will also take time this month to learn more about the Pilgrims and the first Thanksgiving!

Unit: A Kids Way

Lets give thanks and help ones in need! We are collecting canned and non-perishable items for Rockwall Helping Hands. Drop off items by November 19th at Galaxy Ranch! Thank you!

Mathematical Concepts!

This month we will be measuring lengths. We will measure with both standard and non-standard units, make predictions, and check them out. We will come to understand the necessity of standard units of measure. Please take advantage of day-to-day opportunities to measure things with your child!

We will begin exploring time by moving quickly and slowly, using a stopwatch, using rhythms to beat out time, and drawing a time line!

We will begin skip counting - counting by 2's, 5's, and 10's. We will begin learning about the dime and will compare coins by size and feel.

We will also enjoy many different card games that reinforce our mathematical concepts!

Kindergarten Home Connection November 2021

Sun	Mon	Tue	Wed	Thu	Fri	Sat
	1 Swim Day	2 	3	4	5 Sack Lunch	6 
	7 	8 Swim Day	9	10	11	12 Sack Lunch
	13	14 	15 Swim Day	16 	17	18 Sack Lunch
